DETAILED ACTION

Specification

The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

The abstract includes material such as the title. A new abstract on a separate page is required.

Each page of the specification must be renumbered consecutively, starting with 1 in accordance with 37 CFR 1.52(b)(5).

Claim Rejections - 35 USC § 112

Claims 18, 20, and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation of claims 1, 19, and claim 21 at the end of the respective claims render the claims indefinite. The further limiting should be recite earlier in the claims.

The claims must be numbered in a conventional manner. The numbering employing "[c1] – [c22]" is improper.

Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2636

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Crichlow.

Crichlow shows the system for providing real time information on the internet of the amount of a utility commodity used at a meter and its cost comprising an internet site 48, automatic meter reader 32, communicating means 50, and optional means in the form X-10 technology, wireless, or telephone lines, paragraph 0094, and related figures.
